

## Programming the unit for temperature

This function is intended to set the temperature unit.

Now we take S40(04-) 2008 30786352 AD (ECU Diagnostic Part Number) as an example to illustrate the operation:

Note: The highlight item in the figure indicates corresponding action.

1. step 1: S40(04-)

SELECT MENU			
850

4. step 4:

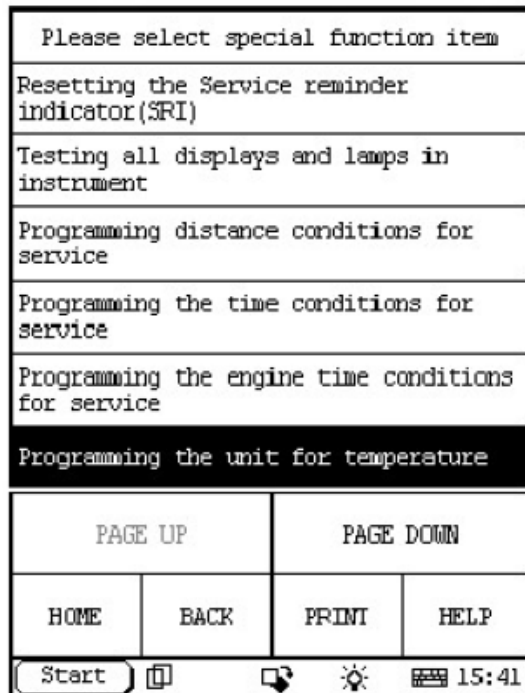

Select: Special Function.

If you can't find the Special Function menu, it means the function has not been developed on your vehicle. Please record the VIN (Vehicle Identification Number) and Version Information (can be read by X431 with the function: Reading off control module ID) and email to Launch (x431@cnlaunch.com). We may work out a solution on how to solve the problem.

Select function			
Reading off control module ID			
Reading off Diagnostic Trouble Codes			
Erasing Diagnostic Trouble Codes

5. step 5:

Select: Programming the unit for temperature

## 6. step 6:

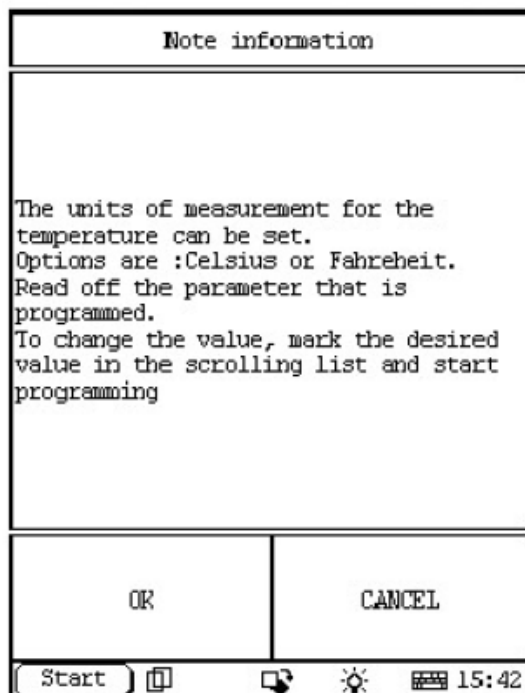

The information of Programming the unit for temperature:

The units of measurement for the temperature can be set.

Options are :Celsius or Fahrenheit.

Read off the parameter that is programmed.

To change the value, mark the desired value on the screen and start programming

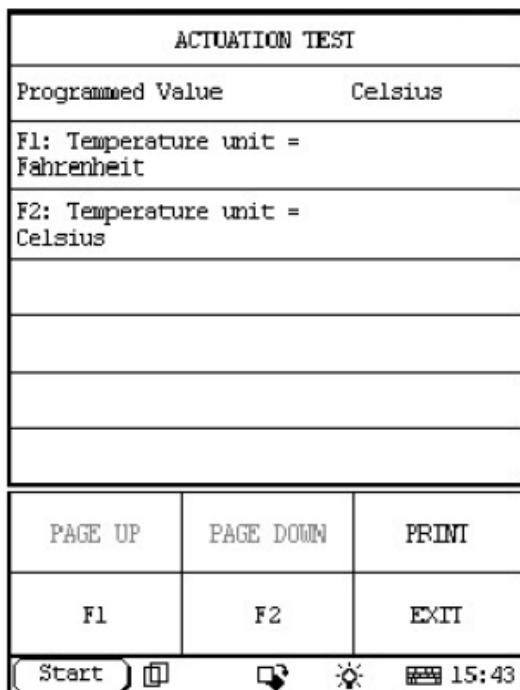

## 7. step 7:

Select Ok then it will send command to ECU, and display information like this:

Note! If not support information displayed, it will exit this function.

If support, display information like this:

The first line, Programmed Value Celsius, is the present programmed value for your vehicle, if you want to change this value, you can select the desired value in the list:

F1: Temperature unit = Fahrenheit

F2: Temperature unit = Celsius

For example: if you want to change this value to Fahrenheit, please select F1 and it will start programming. When programming finish, the Programmed Value will change to Fahrenheit as the following figure, and the temperature unit in instrument will change again, it means that the programming succeeds.

Note! Maybe some vehicles can not be programmed. (Programmed Value does not change when programming)
