

## Configuration of the siren

This function is intended to set the configuration of the siren.

Now take XC90 2007 30797802 AA (ECU Diagnostic Part Number) as an example to illustrate the operation:

Note: The highlight item in the figure indicates corresponding action.

1. step 1: XC90

SELECT MENU			
V70 XC(-00)			
V70 XC(01-)/XC70(-07)			
XC70(08-)			
V90			
<b>XC90</b>			
XC90 V8			
C30			
C70(06-)			
PAGE UP		PAGE DOWN	
HOME	BACK	PRINT	HELP
Start			 15:23

2. step 2: select year

SELECT MENU			
VIN			
2003			
2004			
2005			
2006			
<b>2007</b>			
PAGE UP		PAGE DOWN	
HOME	BACK	PRINT	HELP
Start			 15:24

3. step 3: select UEM

SELECT MENU			
UEM (Up electrical module)			
REM (Rear electrical module)			
DIM (Driver information module)			
PDM (Passenger door module)			
PSM (Power seat module)			
DDM (Driver door module)			
CCM (Climate control module)			
PHM (Phone module)			
PAGE UP		PAGE DOWN	
HOME	BACK	PRINT	HELP
Start			 15:24

4. step 4:  
Select Special Function.

If you can't find the Special Function menu, it means the function has not been developed on your vehicle. Please record the VIN (Vehicle Identification Number) and Version Information (can be read by X431 with the function: Reading off control module ID) and email to Launch (x431@cnlaunch.com). We may work out a solution on how to solve the problem.

Select function			
Reading off control module ID			
Reading off Diagnostic Trouble Codes			
Erasing Diagnostic Trouble Codes			
Parameter display			
Activating components/functions			
Special Function			
PAGE UP		PAGE DOWN	
HOME	BACK	PRINT	HELP
Start			 15:28

5. step 5:  
Select Configuration of the siren

Please select special function item			
Configuration of the siren			
PAGE UP		PAGE DOWN	
HOME	BACK	PRINT	HELP
Start			 15:28

6. step 6:

The information of Configuration of the siren:

Note! When the siren has been replaced, a configuration has to be done in order to make the siren work properly.

Ignition on

Ensure that no diagnostic trouble codes(DTCs) have been stored.

Note information			
<p>Note! When the siren has been replaced, a configuration has to be done in order to make the siren work properly.</p> <p>Ignition on Ensure that no diagnostic trouble codes (DTCs) have been stored.</p>			
OK	CANCEL		
Start			 15:28

7. step 7:

Select OK, it will send command to ECU and start programming.

If configuration succeeds, it will display: Configuration Completed.

Otherwise it displays: Configuration Failed. In the case, please try again.
